Re: Civil Litigant Preservation Request — Ventura v. Randstad US LLC, et al. — Case No. 5:25-cv-02931-SRM-DTB; 2026-00001530 - Enclosures: 2 (8 pages); Corrected Results Letter.pdf; Form 10-K Bandwidth.com CLEC 04202026.pdf;

Dear All,

A critical piece of information found after contacting Lumen Technologies with the preservation request (2026-00001530 email attachment). What was sent by Lumen's legal team representative was an acknowledgement of the preservation letter, a notice of their compliance as a business, and the Corrected Results Letter. The Letter is where the critical info is.

This has led me to what I believe is the identification of the simple or complex chain-porting mechanism evolving the original thought of individual conspirators and agents of Defendants with individual phones. See video below: https://youtu.be/KNWY9tqIhg4?si=TeWRMAEwZZ7V8Tcv. Other tactics like number parking and API spoofing may have been used, but we need to overlay this with how the chat progressed. It was likely too much work for one user with programmatic responses or automated text-to-speech. We now look to the three channels that were created aside from the different agents of Defendant that were presented: Recruiter, Customer Service, and Group chat.

I will be working through additional mechanistic models and will follow up next week (e.g., total number of possible administration configurations). You can expect a visual diagram when I have concluded it is comprehensive for your corroboration.

Shifting to the next insight...

Next, there is a presenting challenge that Bandwidth is a sham company who went to market, but encountered critical financial and market trouble. See their latest 10-K for stock price and profit margin. They also recently modified the corporate entity to include *CLEC* which is an increasingly common practice of product/service representations in niche tech spaces. Use cases of the VoIP technology were suspicious regardless of the company inviting executives from alleged customer accounts in massive customer service operations. The legal team's response in the Re: Civil Litigant preservation indicates they are being obstructive, ignorant, or impolite.

Lastly, ...

To my knowledge, Defense Counsel should be intensely involved with the investigation, so I will be relaying relevant information at the frequency it is uncovered and a preliminarily analyzed. I still need

back-up on either a relief from dismissal and a push towards scheduling & conference setting or stipulation for early subpoena. Should the case close early, I will be seeking to Appeal in the Ninth Circuit. Settlement Communication is still planned over the next month and likely after the outcome of the May 13th hearing.

You can call or email once you've had a chance to digest the new pieces of information.

Best regards,
Nicholas A. Ventura

Preservation Letter for Lumen Technologies and CT Corporation System_04202026pdf.pdf;

Telnyx Legal Department:

I am the Plaintiff, appearing pro se, in the above-captioned civil action pending in the United States District Court for the Central District of California, Western Division. The action involves alleged interstate electronic communications implicating two (2) telephone numbers reverse-resolved to Telnyx LLC.

Please find attached a formal preservation letter requesting preservation of records associated with telephone numbers (478) 247-8521 and (559) 336-6863 — together with the underlying customer accounts and KYC verification records — across three time windows: pre-interaction (account establishment through April 12, 2024), interaction (April 13, 2024 through October 31, 2024), and post-interaction (November 1, 2024 to present).
Given the relevance of customer-verification records to the claims at issue, the preservation request expressly extends to all KYC records, account-application records, and any internal flags or escalations associated with the accounts provisioning the listed numbers.

The letter is being concurrently served on CT Corporation System as registered agent, by certified mail with return receipt requested. This email is provided as a courtesy.
This is a preservation request only. No production is requested at this time. A Rule 45 subpoena will follow upon leave of the Court.

A written acknowledgment within fourteen (14) calendar days would be appreciated and may be directed to me at the email and address shown on the attached letter.

Respectfully,
Nicholas A. Ventura

Preservation Letter for Bandwidth.com and Corporation Services Company_04202026pdf.pdf;

T-Mobile Law Enforcement Relations Group:

I am the Plaintiff, appearing pro se, in the above-captioned civil action pending in the United States District Court for the Central District of California, Western Division. I recognize that the LERG primarily handles law-enforcement requests; this is a civil-litigant preservation notice transmitted to LERG as the most reliable internal routing channel.

Please find attached a formal preservation letter requesting preservation of records associated with four (4) telephone numbers reverse-resolved to T-Mobile USA, Inc. (including former Sprint accounts) across three time windows: pre-interaction (account establishment through April 12, 2024), interaction (April 13, 2024 through October 31, 2024), and post-interaction (November 1, 2024 to present).

Time-sensitivity note: Because T-Mobile's standard CDR retention period is approximately twenty-four (24) months and the earliest portion of the relevant conduct window dates to April 2024, preservation is urgently required to prevent imminent destruction under routine retention schedules.

The letter is being concurrently served on Corporation Service Company as registered agent, by certified mail with return receipt requested. This email is provided as a courtesy and to ensure expedited handling given the retention-window concern.

This is a **preservation request only**. No production is requested at this time. A Rule 45 subpoena will follow upon leave of the Court.

A written acknowledgment within fourteen (14) calendar days would be appreciated and may be directed to me at the email and address shown on the attached letter.

Respectfully,

Nicholas A. Ventura

#96072131: Civil Litigant Preservation Request — Ventura v. Randstad US LLC, et al. — Case No. 5:25-cv-02931-SRM-DTB

Resolved

We've completed your ticket

Bandwidth Legal Compliance Team: I am the Plaintiff, appearing pro se, in the above-captioned civil action pending in the United States District Court for the Central District of California, Western Division. The action involves alleged interstate electronic communications implicating approximately twenty (20) telephone numbers reverse-resolved to Bandwidth Inc. Please find attached a formal preservation letter requesting preservation of records associated with the listed telephone numbers — together with the underlying wholesale-customer accounts through which those numbers were provisioned — across three time windows: pre-interaction (account establishment through April 12, 2024), interaction (April 13, 2024 through October 31, 2024), and post-interaction (November 1, 2024 to present). Because the volume of numbers and the geographic dispersion are consistent with a single wholesale-customer account or a small cluster of related accounts, the preservation request expressly extends to wholesale-customer identification records and to sibling accounts sharing common registration indicia. The letter is being concurrently served on Corporation Service Company as registered agent, by certified mail with return receipt requested, and to the Custodian of Records at 2230 Bandmate Way, Raleigh, NC 27607. This email is provided as a courtesy. This is a **preservation request only**. No production is requested at this time. A Rule 45 subpoena will follow upon leave of the Court. A written acknowledgment within fourteen (14) calendar days would be appreciated and may be directed to me at the email and address shown on the attached letter. Respectfully, Nicholas A. Dear Eric,

After reviewing you response I was left with many questions. I recently learned from another legal team at a phone provider that one number critical to the investigation was listed as L3 Communications, Inc. but may have belonged to Bandwidth during the period of the fraud scheme.

After going into the bulk porting technology, I still need to verify whether the identifying information can be obtained by user or users of the number even if a chain was formed.

Please get back to me when you can with more answers.

Dear Eric,

Thanks for your response— and all who are Cc'd for that matter.

I don't see an actual guide and that indicates the organization may not have this area developed yet for the public. Please correct me if you see otherwise.

My request was mainly to prime your team for a subpoena for production of documents that we are working towards over the next year. All parties of the court case mentioned have interest in who was using the phone numbers and administering through your platform.

If the company is unable to comply at that point after the warning that was sent, another issue is raised.

Thanks again for your time.

Respectfully,
Nicholas A. Ventura

> I am the Plaintiff, appearing pro se, in the above-captioned civil action pending in the United States District Court for the Central District of California, Western Division. The action involves alleged interstate electronic communications implicating approximately twenty (20) telephone numbers reverse-resolved to Bandwidth Inc.
>
> Please find attached a formal preservation letter requesting preservation of records associated with the listed telephone numbers — together with the underlying wholesale-customer accounts through which those numbers were provisioned — across three time windows: pre-interaction (account establishment through April

12, 2024), interaction (April 13, 2024 through October 31, 2024), and post-interaction (November 1, 2024 to present).

Because the volume of numbers and the geographic dispersion are consistent with a single wholesale-customer account or a small cluster of related accounts, the preservation request expressly extends to wholesale-customer identification records and to sibling accounts sharing common registration indicia.

The letter is being concurrently served on Corporation Service Company as registered agent, by certified mail with return receipt requested, and to the Custodian of Records at 2230 Bandmate Way, Raleigh, NC 27607. This email is provided as a courtesy.

This is a **preservation request only**. No production is requested at this time. A Rule 45 subpoena will follow upon leave of the Court.

A written acknowledgment within fourteen (14) calendar days would be appreciated and may be directed to me at the email and address shown on the attached letter.

Respectfully,

Nicholas A. Ventura

Preservation Letter for Bandwidth.com and Corporation Services Company_04202026pdf.pdf;

Bandwidth Legal Compliance Team:

I am the Plaintiff, appearing pro se, in the above-captioned civil action pending in the United States District Court for the Central District of California, Western Division. The action involves alleged interstate electronic communications implicating approximately twenty (20) telephone numbers reverse-resolved to Bandwidth Inc.

Please find attached a formal preservation letter requesting preservation of records associated with the listed telephone numbers — together with the underlying wholesale-customer accounts through which those numbers were provisioned — across three time windows: pre-interaction (account establishment through April 12, 2024), interaction (April 13, 2024 through October 31, 2024), and post-interaction (November 1, 2024 to present).

Because the volume of numbers and the geographic dispersion are consistent with a single wholesale-customer account or a small cluster of related accounts, the preservation request expressly extends to wholesale-customer identification records and to sibling accounts sharing common registration indicia.

The letter is being concurrently served on Corporation Service Company as registered agent, by certified mail with return receipt requested, and to the Custodian of Records at 2230 Bandmate Way, Raleigh, NC 27607. This email is provided as a courtesy.

This is a **preservation request only**. No production is requested at this time. A Rule 45 subpoena will follow upon leave of the Court.

A written acknowledgment within fourteen (14) calendar days would be appreciated and may be directed to me at the email and address shown on the attached letter.

Respectfully,

Nicholas A. Ventura
