CAUSE

Since the last correspondence submitted to Your Honor, Mr. Sandoval completed 90-days of the alcohol monitoring program and enrolled in intensive outpatient substance abuse treatment at the Sharp McDonald Center. He had an expected completion date of August 7, 2026; however, on August 6, 2026, the probation officer conducted a routine home contact at his residence. During the contact, Mr. Sandoval submitted a positive alcohol breath test via an alcohol monitoring device. Mr. Sandoval was forthcoming and admitted to consuming alcohol earlier that morning, around 2:00AM. Mr. Sandoval was not able to provide a reason for his relapse and was directed to report to the probation office the following day.

On August 7, 2026, Mr. Sandoval reported to the probation office as directed and submitted a negative alcohol breath test. The probation officer reminded Mr. Sandoval that this was his third admission to consuming alcohol since December 2025. Mr. Sandoval understood and admitted to having an alcohol problem. He agreed to remain in outpatient treatment to continue addressing his alcohol use disorder. Additionally, Mr. Sandoval reported succumbing to his addiction due to feeling sad and depressed about his living situation, while not being able to afford a place of his own and having to continue to reside with his mother. Due to his relapse, Mr. Sandoval's outpatient drug treatment completion date was extended to August 28, 2026. The probation officer confirmed completion with the provider, who also suggested that Mr. Sandoval continue treatment via self-help meetings and random alcohol breath tests.

The probation officer met with Mr. Sandoval on August 27, 2026, at the probation office and he submitted a negative alcohol breath test. In an effort to address the violation, Mr. Sandoval agreed to modify his conditions and add the aforementioned condition. In addition, the probation officer began implementing cognitive behavioral therapy-based interventions to include Interactive Journaling specific to substance use. This will allow the probation officer to assist Mr. Sandoval in developing coping strategies. It is recommended the conditions of supervised release be modified as outlined above. Mr. Sandoval is in agreement with the modification request as evidenced by his signature on the attached Waiver of Hearing to Modify the Conditions of Supervised Release.
