LTI Language Testing International

Dear Brendan Ngwa Nforbi,

AT&T Taleo has requested that you complete a speaking proficiency test for Spanish. The ACTFL Telephone OPIc is a 30-40 minute speaking test delivered over the phone using pre-recorded questions and available to you on demand.

This test will measure your ability to speak in Spanish. Please be sure to respond to all questions in Spanish.

Please be sure to call from a quiet location, preferably on a landline phone. If a cell phone must be used, please call from a fixed location where you have a strong signal and will be able to speak for 30-40 minutes. Should you get disconnected from the test for any reason, please call back immediately to continue your test (the test will continue from where you were disconnected). If you are disconnected and unable to resume your test within two hours, your test code will be locked for security purposes and you will need to contact LTI for a new test access code.

Please follow the below steps to access your Telephone OPIc:

1. Dial (866) 249-2112
2. When prompted, enter your Test Access Code (82594911).

This test will expire on May 25, 2026 at midnight.

Your test rating will be provided to AT&T Taleo. For any additional information regarding your rating please contact AT&T Taleo directly.

If you have any questions or concerns please do not hesitate to contact us at 800-486-8444 ext. 310 or email testing@languagetesting.com.

Thank you
