PLAINTIFF COPY — DO NOT FILE — DO NOT PUT THIS SHEET IN THE MEZA ENVELOPE
Nforbi v. Meza-Gonzalez et al., 4:26-cv-08271-ASK · papers dated September 17, 2026

What Dkt. 16 actually is

Keep Documents 16 / 16-1. They prove two attempts (Aug. 25, 4:00 p.m.; Aug. 26, 10:15 a.m.) and leaving the right stack with Kim S. - H.R. at 4030 Kiernan Avenue on Aug. 27 at 1:30 p.m. They do not close Rule 4. The form says a declaration of diligence and/or mailing is attached if applicable. You filed diligence only. No mail date. No first-class recital. No postage. Workplace substitute service here is Rule 4(e)(1) using CCP § 415.20(b). That statute is leave-plus-mail. Service is complete on the 10th day after mailing.

It is not Rule 4(e)(2): not personal delivery, not dwelling service, and Kim S. is not identified as an authorized agent. Melano's return said Officer Reed was designated to accept at that station. This one does not say that about Kim S.

Do not treat September 17 as a default date

Haiyang Li is not the defendant. These papers were not left with him. He has no Rule 12(a) duty in this action until he appears or the Court orders him to accept service (Dkt. 13 is that ask; it is already on file). Counting 21 days from August 27 lands on Thursday, September 17. That is the weak theory. Li will say exactly what the return shows: two attempts, papers left with HR, no mail follow-up, not an authorized agent. Until this mailing goes out — or the Court grants Dkt. 13 — there is no completed 415.20 service and no clean 12(a) date.

What goes in the Meza envelope (first-class, postage prepaid)

Use the assembled mailing bundle, or print these in this order:

1. Cover letter (signed) — one page
2. Issued Meza summons only (Dkt. 3, page 2 — 4030 Kiernan Ave.)
3. First Amended Complaint, Dkt. 5 (21 pages)
4. Notice Identifying the Operative FAC (2 pages)
5. CMC / ADR order, Dkt. 4 (2 pages)

Address: Santiago Meza-Gonzalez / CHP Modesto Area /
4030 Kiernan Avenue / Modesto, CA 95356
That is the place where Fischer left the copies. The statute requires mailing to that place. Individual capacity. Do not put Dkt. 16 in this envelope. Do not put this instruction sheet in it. Do not put a GitHub or document-store link in it.

Who drops it in the mail

CCP § 414.10 says a summons may be served by a person who is at least 18 and not a party. Fischer already left the papers. The safer mailing is by any adult who is not you — a friend, a roommate, another server. That person signs the non-party declaration. If you mail it yourself, use the Plaintiff-signed declaration. Mail either way rather than skip. Date the declaration the day the envelope actually goes in. City of mailing on these papers: San Jose, California. Match the USPS receipt.

After the envelope is in the mail — same day if you can

1. Keep the USPS receipt. Tape it behind the Exhibit A cover.
2. Sign the matching declaration (you, or the non-party mailer).
3. File with the N.D. Cal. San Jose clerk: declaration + Exhibit A + proof of service. Same path Dkt. 13 and Dkt. 16 used.
4. Serve that filing by first-class on Li, Melano, and Meza (the POS already lists them).
5. Send Li the covering email (EMAIL_DRAFT_Li_CCP_41520_Mailing_Meza.txt). Attach the signed declaration from your computer. No GitHub URL.

The clock once the mail goes out

If mailed September 17, 2026: service is complete on the 10th day after mailing, then Rule 12(a) adds 21 days, and Rule 6 skips a weekend or holiday last day. For a September 16 or September 17 mailing that is Monday, October 19,

2026. Do not write that date on anything Li or Meza will see. Do not start a default clock until the mailing is done and the tenth day has run. Dkt. 13 stays on file. Completing this mailing does not withdraw it.
